

Amito is a strong, agile and intelligent hybrid cloud solution. We have originated from three specialist organisations merging their expertise.

Taking care of our customers and their critical data since 2000, we're your trusted hybrid cloud experts.

"The 'as standard' 24/7 support that Amito offer has enabled our organisation to grow. The dedicated account managers have made recommendations and changes to our solution to enable such growth."

Dan Parker  
Co-Founder/Director, FireText
